

The Muirbeck Angler's Number

Access to Muirbeck is reserved for anglers who have demonstrated the standards expected at Broom Fisheries over time.

Rather than a traditional membership, anglers may earn a **Muirbeck Angler's Number**. This number recognises those who have built experience on the main lakes and shown the qualities required to fish a water holding fish of this calibre.

An Angler's Number may be offered to anglers who consistently demonstrate:

- **Respect for the fish and fishery**
- **Excellent fish care and handling**
- **Appropriate tackle and angling practices**
- **Watercraft and patience developed over time**
- **A positive presence within the fishery**

In most cases this comes naturally through **regular visits to Broom Fisheries**, fishing the main waters and becoming a familiar and trusted angler within the fishery.

Once issued, an **Angler's Number** allows the angler to **book a peg on Muirbeck**, subject to availability.

This approach ensures that everyone fishing Muirbeck understands and shares the values that protect both the fish and the experience for others.

At Broom Fisheries we believe that waters like Muirbeck should be **earned through time, experience, and respect for the craft of angling**.
